

# STORY BIBLE

## Basic Story Outline

During this pandemic, we used to take care of our health. The government gives us certain measures to follow so that we don't confront any problems.. This game helps us to be safe in our homes and to obey the rules. In this game you must obey the rules or you may die. **The name of the game is CORONA Fighter**, in which the player must tackle/dodge all the enemy(virus, infected humans) to score. It's an endless game where the player needs to run all the time.

## Players

### Character #1 : Main Player

The main role of the player is to run and dodge all the enemies and get power ups in order to survive. The main player has many abilities which helps them to tackle all the problems. The total life of the player is 5.

## Non-Players

### Character #1: Virus

The virus is an enemy which will reduce the life of the player by 2.

### Character #2: Infected humans

The infected human is an enemy which will reduce the life of the player by 1. The player must keep distance so that they don't lose their life.

## Settings

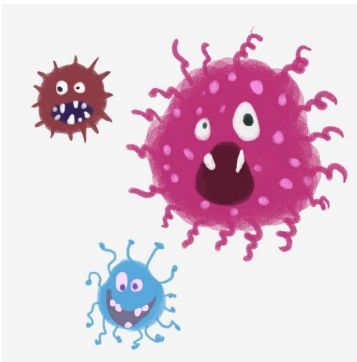

- The player can sign in with any social media platform.
- Highscore will be provided.
- There will be a bunch of players and abilities which will make the game more interesting.

## Other Important Narrative Elements

In this game there will be an influence of the weather which will make the game more interactive and interesting to play.

## Equipment and “Legendary” Items

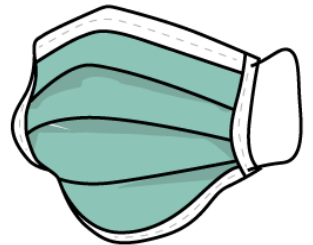

There will be powerups in this game like sanitizer, mask, vaccine which will increase and help the player if they get damaged. Vaccine will immune the player for a limited time, sanitizer and mask will help the player to increase the power.
